

Children's Program

Creativity Unlimited offers After School Art Classes, Saturday Art Workshops and School Holiday Art Programs for children in our beautiful studio by the sea.

We create a friendly environment for children aged 5yrs - 18yrs and support their originality, self-expression and imaginative discoveries. Children will experiment with a wide range of art materials and art processes, develop skills in drawing, painting, sculpture and printmaking and above all have a lot of fun!

Our Curriculum

Delight in the Unexpected

Our curriculum is inspired by many features advocated by contemporary research on children and creativity, including the Reggio Emilia Approach and the Harvard University based Project Zero. Studies show that children who study art have higher self esteem, better problem solving skills and increased motivation to learn. Clearly creativity makes you smarter, but kids also know that art is a lot of fun! We place a high value on our ability to improvise and respond to children's love and enjoyment of the unexpected. We are committed to quality and professionalism and our lessons are always given in the spirit of joy and playfulness.
